# New Features for Blackbaud Altru 5.24

## New Menu Enhancements ..... 3

Before you use the new **Blackbaud Altru** features released in February 2022, we recommend that you review the information in this guide. It will help you and any other **Altru** users in your organization get the most from the enhancements we introduced.

## New Menu Enhancements

With this release, we upgraded the menu that appears at the top of your page. The new version provides you with a more modern experience that is consistent with other Blackbaud solutions and resources.

While some features have moved, you can still access all features that were available in the previous version — as well as a few new ones.

From the updated menu, you can:

 — Switch to another solution, such as **Financial Edge NXT**.

**Note:** This option only appears if your organization uses multiple Blackbaud solutions.

 — Open your organization's calendar.

 — Visit the **Altru** landing page to access additional resources and features such as Mobile Check-in.

 — Search for features and records.

 — Add new records.

 — Switch between databases (if your organization uses an **Altru** Staging database).

You can also select your initials to manage your Blackbaud profile, access Support resources, and more.
