7.73.0 New Features

This guide lists new features available in **eTapestry** 7.73.0, released on June 5, 2022.

Automatically delete unused reports and queries

To keep your database current and accurate, you can now select to automatically delete unused reports and queries that haven't been used for a specific amount of time.

From **Management, My Organization**, select **Preferences**. Under **Database maintenance**, select to automatically delete queries or reports and select the amount of time reports and queries should go unused before they are deleted from your database.

For more information, see [Preferences](#).

Quickly add gifts, notes, and contacts from an account

To quickly add gift, note, and contacts for an account, you can now add these items from the header of the account record.
