## Upgrade Overview

**Host\*Net** clients will be upgraded to 14.71 on August 25th, 2019.

**On Premise** clients on version 12.50 or later can update to 14.71 by downloading the installation package from Blackbaud Downloads ( <https://www.blackbaud.com/support/downloads/downloads.aspx>), and following the installation instructions in the **FIMS 14.71 Upgrade Guide**.

**Note for On-Premise clients:** **FIMS versions 14.70** and later support **Progress OpenEdge 11.7.5** as the minimum-supported version.

For information about upgrading to **Progress 11.7.5**, see [Knowledgebase article 117586](#), or to learn about moving your data to Blackbaud’s hosted environment in Host\*Net, contact Blackbaud.

If you are currently on **Progress 11.6.4**, you can still upgrade to **FIMS 14.71**. Upgrading to **Progress 11.7.5** is not required for upgrading to **FIMS 14.71**, but it is the current recommended version for use with **FIMS**.

If your **FIMS** database server is **Windows Server 2019**, **Progress 11.7.5** is supported for use with that operating system.

If you are on **Progress 10**, **Progress 10** is not supported starting with **FIMS 14.70** and you will need to upgrade to a later version of Progress.

Depending on accepted updates, you may see the following prompts elsewhere in FIMS:

For address updates:

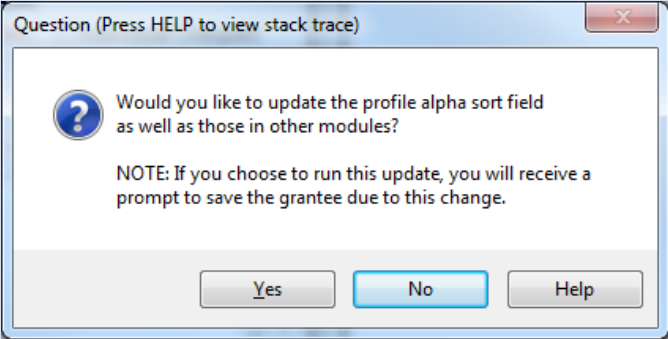

**Note:** The above message only displays when the new system option for copying profile data to alternate address is enabled.

When a name is updated and the current Alpha Sort Field (ASF) for the profile is not customized:

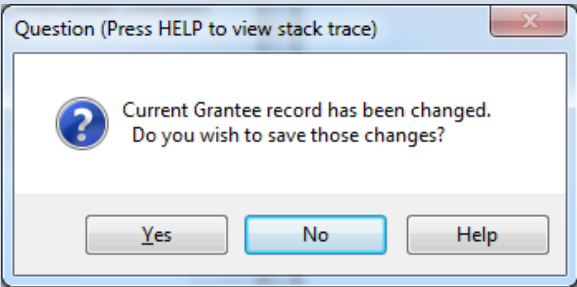

| ID | Module | Description |

|----|--------|-------------|

When a profile folder exists for the profile, a message displays the previous and new value.

When the update for profile alpha sort is chosen, the following prompt displays because the grantee ASF field changed.

A report displays an updated ASF field.

**Active and Inactive flags available in General Ledger Master Chart**

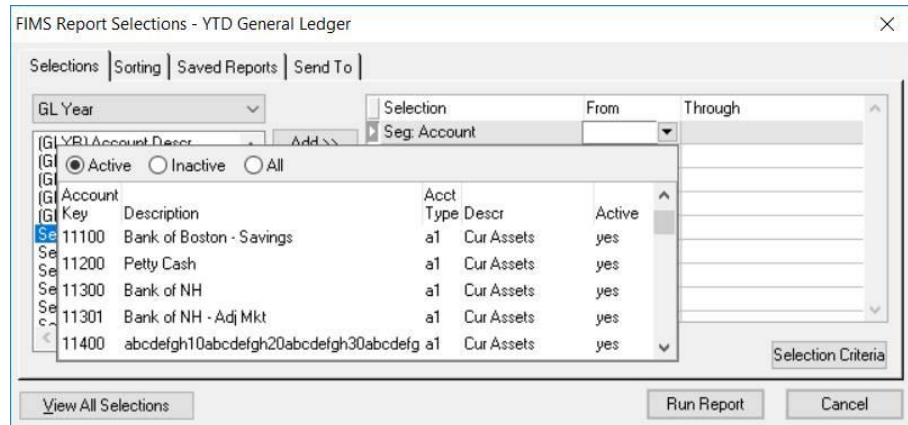

In the [General Ledger Master Chart](#), you can now hide or view inactive accounts with an **Inactive** flag. This is helpful when arranging or doing lookup in the Master Chart.

The **Master Chart of Accounts Maintenance** now includes an **Active** column that displays whether a fund is active or inactive.

**Active and Inactive** options are also available in lookup such as in the following locations in FIMS:

|  |                                | <p>As <a href="#">requested in the Idea Portal</a>, the <b>Staff</b> field now auto-populates when <a href="#">creating a new Contact</a>. Now staff members no longer need to remember to manually put their initials into the field.</p> <p><b>Prerequisite:</b> By default, this option is enabled. However, to use this feature, you must assign the <b>FIMS User ID</b> in the <b>Staff Code Table</b> by going to <b>File Maintenance &gt; Profiles &gt; Profile Code Maintenance &gt; Staff</b>. See <a href="#">Maintaining Staff Codes</a>.</p> <p>To disable this option, go to <b>Tools &gt; System Utilities &gt; System Options</b>. In the <b>Section</b> options, choose <b>Contacts</b>. In <b>Option</b>, choose <b>Auto_Populate_Staff</b>, then set a <b>Value</b> of <b>No</b>.</p> |

In this release, we've added a new <b>System Option</b> so you can choose to disable the option. When disabled, you are no longer prompted to choose whether you want to copy the previous address to an alternate address when making an address update.</p> <p>To disable the prompts to move previous address details to the alternate address, go to <b>Tools &gt; System Options</b>. Choose <b>Profiles</b> as the <b>Section</b>, then choose the option <b>Copy_Previous_Address_To_Alternate_Address</b>. Select a <b>Value</b> of <b>No</b> to disable the prompts and feature.</p>     |
